Report of Plastic Free Campus

Institute of Science Poona's, Swami Vivekanand College of Education Wakad has organized a one day drive on "Plastic Free Campus" on 6th July 2018 at college level for faculty and students. It was basically based upon the cleanliness of campus with plastic. Our college encourages students and staff not to use plastic bags. Ban on plastic bags must be implemented by the government and fines must be imposed on people violating the ban. Plastic bags should not be used at any cost by any of the member of the Institute. The main motive behind this one day drive was to spread the awareness about the proper disposal of plastic waste so that it can be recycled or converted into energy.

It was the major contribution from everyone who was present for the drive to educating people on the use of paper bags which creates many healthy and environmental bases. As the main motive of the "Plastic Free campus Drive" is to seize the plastic waste from the adjoining areas of college premises so defaulters were also penalized during the campaign. Thus, in this way the initials were taken from all of us to 'Say No to Plastic' and its use.

Plastic Free Drive
